Soul Scope - Introducing Yourself To You

Above is your name, and birth details. Please check this information is correct.

Your Soul Scope symbolises and sheds light upon - your purpose, your needs, your talents, your doubts, your sensitive spots, your destiny and more.

Whilst Reading Your Soul Scope

The overall accuracy of your Soul Scope is dependent on your birth time. Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your potential; it is up to you what you make of this potential. You should always rely upon your own judgement and individual choice, will and inclination - which are precisely what your Soul Scope helps shed light upon.

Below your chartwheel the 'astrological positions' of your horoscope are set out by zodiac sign and degree which are interpreted in the following twelve chapters describing what they mean in your life. The number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more powerful and significant the meaning of that aspect will be. The keys for the planets and the other symbols and terms used are given at the back of the report.

Johnny's Chart Elements

There are four Elements in astrology: Fire, Earth, Air and Water. Each Zodiac Sign belongs to one of these, and you have each of these Elements either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Johnny's Earth Element Over-Emphasised

You are usually cautious, even to the point seeing yourself or life as boring. You can be very 'physical' and/or materialistic. You are inclined to be too predictable and habit-ridden.

To compensate, be less controlling, leave things to chance more, and make room for the unexpected. Learn to trust the Unknown. Also, look to any planetary placements in Fire and Air Signs, and make the most of them.

Johnny's Water Element Under-Emphasised

You can be out of touch with your own and others' feelings. You are not naturally empathetic. You may also be prone to toxicity.

To compensate, look to the Moon and Neptune, and if you know the time of your birth any placements in 4th, 8th or 12th Houses, and make more of them. Detox regularly. Identify what few, if any, planetary placements you do have in Water, and make the most of them.

Johnny's Air Element Balanced

You are clear without being 'light', impartial without sitting on the fence.

Johnny's Fire Element Balanced

You have a healthy drive without being too driven. You can amuse yourself and are easily enthused.

Johnny's Chart Modes

There are three Modes in astrology: Cardinal, Fixed and Mutable. Each Zodiac Sign belongs to one of these, and you have these Modes either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Johnny's Cardinal Mode Under-Emphasised

You possibly lack initiative, and wait for or depend upon others to get things going.

To compensate, either accept that you are a follower rather than a leader, or discover what you want enough to go it alone.

Johnny's Fixed Mode Balanced

You are firm yet open to changing if need be.

Johnny's Mutable Mode Balanced

You are moderately adaptable and alive to change.

You were born with...

The Planets symbolize various energies manifesting as dynamics of personality.

The Signs qualify or colour these energies, rather like a filter over a light.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another.

Note: Ongoing planetary influences throughout your life - be they in the past, present or future - as they apply to the planetary positions at your birth, are given and interpreted in your **Soul Guide**.

Chapter One - Your Ascendant: Appearance and Persona

AS in ♌

Leo Rising

You have a winning, confident and usually sunny exterior. But how much your inner being is living up to this outer show can be another story entirely. It is as if you project a successful image, which the rest of your personality has to live up to somehow. This can prove a very effective means of self-development, as long as you do not weaken.

Dignity, and pride in your appearance are therefore significant and important. This commanding impression as observed by others should not be underestimated or overlooked, because it is either convincing and effective or overbearing and affected. And responses from others vindicating your own actions or attitudes are easily believed. So beware of flatterers and bootlickers, for they could give you a false impression of yourself.

All the same, you do need approval and praise from others in order to maintain your confidence - so keep displaying your wares. You tend to attract unusual or unstable relationships that require a certain amount of detachment and freedom from possessiveness. This is in aid of offsetting or challenging the self-possessed or regal air, which you appear to have.

The Sun is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Two - Your Sun Profile, with this in mind.

You also have the following planet or planets about to rise in the East at the time of your birth. Such planets are said to be in the First House. This further describes your appearance, persona and outlook on life.

Mars in the First House (See Chapter 7 - Your Mars Profile)

Uranus in the First House (See Chapter 10 - Your Uranus Profile)

Chapter Two - Your Sun profile: Your Will and Purpose

☉ in ♊

Sun in Gemini

Your essential purpose in life is to make contact with, and connections between, whatever or whoever you regard as important - which is more or less everything! You do this because at heart you find everything interesting in some way or another. You are very alive to the variety of animate and inanimate objects on this planet, and you want to get to know as many of them as possible. As a rule though, 'get to know' is all you want to do.

As long as you have a 'taste' you are satisfied; getting deeply involved is not really to your taste and you will flip like a coin from one interest or person to another as it suits you. There may be other parts of your personality/birth chart that need or are attracted to more intimate situations, in which case a more profound sense of human interaction will be asked of you.

Like the many facets of life that you are acquainted with, you are able to turn your hand to many tasks and skills; indeed, it is your hands, as well as your quick mind and wits, which are your most excellent tools. You are, or should be, the communicator. There is nothing like a Gemini for keeping itself, the world and society in touch with each other and with what is happening.

☉ in 11th House

Sun in the Eleventh House

All of this is most likely to focus upon some kind of goal or social ideal. You innately believe John Donne's line that "no man is an island", and so you gravitate or strive towards groups or teams that share the same aspirations. For the same reason, friendships are very important to you. In addition, you often display an interest, or passion even, for freedom and reform in some field of activity.

You tend to get buried in the group you belong to; or sensing the possible loss of your individuality, you rebel against the group you initially rebelled with! But then splinter groups and sudden endings to friendships and associations are all part of your life's course of development. Today's radical is tomorrow's conservative. In the end, it is all part of your striving to uphold some humanitarian cause, through campaigns, inventions or agendas that aim to help mankind. You are a great appreciator of people-power.

Your Sun Aspects

☉ △ ♄ ★★☆☆☆

Sun allying with Saturn

What serves you well in so many respects is your sense of discipline and practicality. You also have an inherent awareness of how the status quo works. You are well able to deal with the challenges and difficulties of your life and of the material world in general for you have a sort of self-balancing mechanism within you.

You usually adhere to a formal and conventional lifestyle and subscribe to traditional standards - or you would make life easier if you used the system as opposed to bucking it. Paradoxically, it is this very sense of order that can cause you to miss some vital but radical point. So it's when taking a chance on something that your marked sense of reality comes into its own.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A LARGE ARCHAIC VOLUME" - The persistence of knowledge and the timeless truths that exist as a source of illumination in and of the present. **Keyword: LEGEND.** When positive, your ability to draw upon past experience to disentangle you from current difficulties and establish a better path for the future. When negative, slavish worship of tradition and authority - the letter of the law rather than the spirit of it.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

☾ in ♑

Moon in Capricorn

Your reigning need is to feel needed. This can prove quite precarious for you as others, especially your parents, can come to see you for what you can do rather than for what you are. Or, one of your parents was not there for you physically or emotionally.

From the word go, your need for external approval put you in a situation where your own emotional nature was not taken into consideration. As a child, were not acknowledged as one, and neither perhaps is the child in you now. Because your emotional interior was not nurtured, and was possibly even abused, you grew up with only a poor idea of how to cherish and value it.

Such emotional denial could cause you to be quite a survivor in the harsh outside world as a kind of substitute for a feeling of inner support. This could turn into a rather grim and lonely alternative, although your cool efficiency would possibly conceal this fact. Or again, you may look for the nurturing parent that you never had in a partner.

Conversely you could be a parent to your partner, and others too, as you deftly manage material affairs but this would eventually only serve to isolate you further. What you have to set about doing with your innately industrious nature is to look for, and find, that sad child inside of you, and possibly with professional therapeutic help, look after it yourself. In becoming the parent of your own inner child in this way, you then develop into an extraordinarily balanced and capable human being.

☾ in 6th House

Moon in the Sixth House

All these needs and feelings largely revolve around health and work. If you are happily or gainfully employed you feel right with the world - when you are not, you don't. So although you put your heart and soul into your job, there can be a danger of your investing emotions into work that don't really belong there. As a consequence of this, you can get too wound up about your work, or use work as a substitute for emotional involvements that have nothing to do with work.

You may also get to thinking that your emotional life can be run in the same logical way that work is. Health itself can then become an issue as your system plays up as a result of overwork or emotional frustration. What your emotional preoccupation with work is really in aid of is making sure that you work out a balance between your job interests and your social ones - that is, a healthy situation. A patently evolved expression of all this is your having an active interest in health itself - based upon balanced habits and lifestyle.

Your Moon Aspects

☾ □ ♃ ★★★★★

Moon challenged by Jupiter

Everything about your Moon Profile is greatly accentuated. The best and the worst qualities are taken to extremes. You have a definite emotional gusto, which also bestows upon you a healthy body that maintains itself brilliantly and automatically. Because this can allow you to overindulge with apparent impunity you could wind up with weight or liver problems. By and large though, your physical and emotional zest can be a tonic to all and sundry.

Just beware of doting upon others too much, or of expecting others to dote too much upon you - for in either case you'd just drive them away.

Moon working with Neptune

One of the finer dimensions to all this is your well-developed empathetic and psychical nature. Because of this you have the makings of the natural therapist or psychologist, possessing a healing ability of the soothing, relaxing kind. You have an excellent bedside manner and a feel for the mood of the moment.

Moon allying with Pluto

Like a solid core running through your emotional make up you have a profound instinct for survival. You may just use this to get by, but this would be rather a waste for when you get right down to the root of the matter, you are capable of regenerating and improving any situation you choose.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"AN ANCIENT BAS-RELIEF CARVED IN GRANITE" - Something that is here to stay, characterised by a sense of conviction and ongoing significance. **Keyword: LEGACY.** When positive, your ability to leave your mark and thereby create a true and lasting impression. When negative, meaningless limitation through excessive reliance upon tradition or outworn values.

Chapter Four - Your Midheaven profile: Career and Status

MC in ♉

Taurus at the Midheaven

Your profession involves things of substance, such as the physical body's care and maintenance, any kind of production or management, real estate, finances, building, horticulture or agriculture, etc. You prefer a steady position with assured assets and income to 'pie-in-the-sky' projects. Material status is important to you.

The condition of your Venus by Sign, House and Aspect will reveal more about the nature of your career, as well as the ease or difficulty encountered in pursuing it, (see Chapter 6).

You also have the following planet or planets culminating overhead at the time of your birth. Such planets are said to be in the Tenth House. This further describes your career, status and reputation.

See Chapter 5 - Your Mercury Profile

See Chapter 6 - Your Venus Profile

Chapter Five - Your Mercury Profile: Perception and Mentality

Mercury in Taurus

Yours is a mind that likes to chew things over and so you acquire depth of knowledge as a result of thoroughly enjoying the process of learning - rather as you would a good meal; you also have a taste for the traditional rather than the new fangled. Once something has been learned and assimilated, you will probably never forget it but, should any idea come along that challenges an established concept, you're very reluctant to accept such an idea. All this confers upon you a practical bent. Either arts and crafts or construction skills come naturally to you or else your practical sense is expressed in handling money or property, or product managing. You're a steady worker and give value for money. Dependable and reassuring as your conservative way of thinking is, if it's carried to the extremes of resisting a change in attitude, then others might have to resort to more dramatic or emotional methods to make you bend a little.

Mercury in the Tenth House

These mental capabilities of yours will actually find a professional outlet in the form of being a writer, journalist, broadcaster, spokesperson, or anything that has to do with communication or manual or mental dexterity: transport, trading, accounting, secretarial, printing, to name a few. You strongly seek recognition for your mental powers but using and regarding the intellect as a superior factor in life has its positive and negative sides. For example, you can be very happy in your work because you have 'learned the ropes'; but the more emotional areas of life can give trouble as your intellectually dominated mind fails to grasp the significance of the feeling nature. Then again, your profession may even cater for this dilemma. How you think was particularly influenced by your mother's mental attitude.

Your Mercury Aspects

Mercury uniting with Venus

Added to all this you have an artistic flair or a way with words. You don't just do or say something - you do it with style, humour or grace. Any activity where a fine touch is required is well-starred. This could be playing a musical instrument, massage, or perhaps public relations. Writing well comes naturally to you also. Just be careful that you don't mistake fine words for equally fine feelings.

Mercury challenged by Mars

You have an inner conflict between what you think and what you want. You tend to express this by being awkward or contrary, verbally or physically - argumentative in fact - but your agitated mind does fire you to act and speak out, thereby getting things done or out into the open. Just try not to let your contentious nature become a way of life in itself. To do this, you may need to identify the origin of that inner conflict, that mental anger.

♀ ☐ ♄ ★★★★★☆

Mercury challenged by Saturn

There is no getting away from it, the correct development and use of your mental equipment is utterly important. This means that, as time goes by, you have a more and more disciplined mind with a satisfying working life to match, or else you will become stuck as a result of inconsistent attempts to get to grips with the situation. Alternatively, your perception and interests become dulled by cynicism, or mentally depressed through dry intellectualism or learning difficulties. The formula is: work when your mind feels like working; play with it when it doesn't.

♀ ☐ ♃ ★★☆☆☆

Mercury challenged by Uranus

Furthermore, your interests extend to the scientific or metaphysical. There is an unusual cast to your mind that is attracted to the more offbeat and radical avenues of thought. Alternatively, you might find yourself opposed to these realms of thinking and the people involved with them, as you stand by your more logical viewpoint. In truth though, you are striving to see both sides - the intuitive but unprovable, and the rational - and present a balanced viewpoint as well.

Chapter Six - Your Venus Profile: Attraction and Harmony**Venus in Taurus**

Yours is an earthy sense of love and harmony. You have a strong feel for - or actually embody - what is physically attractive. Such awareness of what satisfies the physical senses can make you successful in a number of areas: art - especially singing, or at least you have a pleasant-sounding speaking voice; cooking and other means of providing comfort and enjoyment; consumerism - you may have a good market sense; healing - for your sense of touch can be highly evolved.

Not surprisingly, you need shows of physical affection as evidence of your worth and desirability. This can go to extremes in the form of passionate possessiveness - but indulging in some sensuous or artistic pursuit that is more under your personal control could assuage this. Rather than overdoing it with the creature comforts you could simply commune with Nature, which will give you a feeling of satisfaction.

**Venus in the Tenth House**

These values and preferences are very important for they greatly determine your reputation and professional standing. Your career itself should involve art, beauty, or social skills of some kind. Your personal appeal can have a lot to do with the success or style of your career. Your mother could have a certain amount to do with how attractive you feel towards the world generally. For example, if she was jealous of your talents or looks she might downgrade your worth and self-esteem; alternatively, her own sense of what appeals could help further your career.

The key to finding your professional niche is that you should simply (or even sensuously) enjoy what you do for a living. In other words, the degree to which you are in touch with your own pleasure principle has everything to do with your amounting to something in the world.

Your Venus Aspects**Venus uniting with Mercury**

And all of your sense of love and beauty is expressed well verbally. What you say and what you write is naturally lyrical. The quality of your voice is also pleasant. Love and beauty constantly occupy your mind but equally, the lack of them perturbs your thinking. Truly, you grace your everyday environment.

**Venus challenged by Mars**

The trouble is that wherever you seek love you also find conflict. Your feelings of tenderness never seem to have anger very far away from them. What you have to do first is appreciate that love and desire, soft feelings and hard ones, are all mixed up inside of you. Curiously, and owing to our society's current confusion over these matters, this conflict within you makes you both exciting and difficult. By the same token, it falls to you to make a greater than average attempt to show your feelings equally of care and desire, of love and sex.

♀ □ ♄ ★★★★★☆

Venus challenged by Saturn

But your pleasures are not without their price and your social or artistic involvements are certainly not without their trials. It's as if the love or the value of anyone or anything that you concern yourself with has to be thoroughly tested. You may well grow up to regard yourself as a bit of a loser in this respect and have a poor sense of self-worth and a bank balance to match but you must always remind yourself of your sincerity and thoughtfulness and that what you are learning is simply how to love, in the manner I have described here.

♀ □ ♅ ★★★★★☆

Venus challenged by Uranus

All these social or moral values of yours are going through great changes. Perhaps you are even rebelling against them. It would appear that you have an unstable attitude in this respect as you jump from one relationship to another. You are divorce prone. What lies behind your excitement seeking and unpredictability is your restless quest for a set of values for the future and a social scene and love life to match. Artistically, you are drawn to the avant-garde.

Chapter Seven - Your Mars profile: Self-Assertion and Sexual Drive

♂ in ♍

Mars in Virgo

You assert yourself best when you have learned (and use) some sort of technique then whatever you do; you do with thoroughness and precision. You are very exacting of others in their work - and sexually too - and you like to keep the score. You know how to hit the right spot, but make a fuss if your opposite number doesn't.

In effect, you have given yourself quite a tall order of satisfying your desires and your need for purity at the same time. This can mean that you put yourself out of the running altogether for a time - or work yourself into the ground trying to achieve perfection. If you allow yourself to become neurotic about this, your health could suffer. So relax and stop driving yourself to do the impossible when your best will more than suffice.

♂ in 1st House

Mars in the First House

All this is quite apparent in your actual physical appearance or presentation. You put yourself forward quite spontaneously, or you feel pushed forward even though you'd rather not be. This natural assertiveness can be negatively or unconsciously expressed in accidents to your head or face, leaving scars. It could be said that your very identity is what you are fighting for and this could have been apparent at birth, with you bursting out as it were.

In any event though, you do have undeniable body energy, which needs directing into some physically competitive activity, sport or martial discipline such as karate. If you are not quite so aggressive, but are more pent-up, Tai Chi, Hatha Yoga or the like would be more suitable. In short, you just have to assert yourself; it's finding the right method, measure and motive that are the crucial issues.

Your Mars Aspects

♂ □ ♃ ★★☆☆☆

Mars challenged by Mercury

What can scotch all your best intentions is the propensity you have to act before thinking, to be arrogant and ignorant of certain facts at the same time. This sounds like a case of learning to count ten before you act or speak when tempers are running high. If you don't, you could regret it - and bluster some more!

♂ □ ♀ ★★☆☆☆

Mars challenged by Venus

If you're going to satisfy these urges, however, it will be necessary for you to carefully consider the sensibilities of others. Sooner or later, without their co-operation, your satisfaction will feel rather one-sided and not really satisfying at all. On the other hand, if you fail to assert your own wishes enough, you will only have yourself to blame if you feel that your better nature is being taken advantage of.

♂ ♃ ♅ ★★★★★

Mars uniting with Uranus

You like to go your own way and if anyone or anything opposes what you yourself want you react quite hotly, even violently or recklessly. You have a very strong sense of fighting for your own (and others') rights to do what you feel you must do.

As long as you don't let this turn you into a mindless reactionary with an unstable temperament able to attract quite dangerous predicaments, your actions can prove to be both fast and effective - even healing. But then again, you might actually like danger. Sexually, you can be wild or experimental, unconventional and unpredictable, as you seek the truth of what sex is all about.

♂ ♃ ♇ ★★☆☆☆

Mars uniting with Pluto

Whether you like it or not, underlying all your sense of self-assertion there lies something very powerful - like a coiled serpent. It very much depends upon the make-up of your personality as a whole as to how you express this sense of power. At one extreme you could be (more than) a bit on the dubious side and use such forcefulness to get what you want by fair means or foul. At the other extreme, the force within you might even intimidate you, or have attracted abuse of some kind.

For this reason, you keep it under wraps - and you may do this quite unconsciously. But ultimately, such power as is in your possession needs to be tamed and put to some constructive use, or it could back up on you in a destructive way. In the process you may need to forgive yourself, or someone else, because you have misused it yourself, or another has used it against you. A healthy sexual relationship, intense physical activity, or something like drumming, will do much to absorb this energy - an energy that is basically of the healing variety.

♂ ♁ MC ★★★★★

Mars allying with your Midheaven

All these assertive energies of yours find their most satisfactory expression in the pursuance of your career. There's something about your way of physically expressing yourself that attracts support from those in authority and that is suited to your actual, or desired, position in the world.

You feel at your most forceful when the bit of ambition is between your teeth. This force thus released, along with the material success that it can attain, would also enable you to create a good domestic environment.

Chapter Eight - Your Jupiter profile: Faith and Understanding

♃ in ♈

Jupiter in Aries

You have the enthusiasm of a child - whatever age you are - and because of this, you can go far in life. You just need to be careful that your natural eagerness does not become arrogance, or that your magnanimity does not get swallowed up by extravagance. You have a knack for avoiding being saddled with the same amount of mental and emotional baggage that others seem to accumulate. If you are not journeying light in this way, then it means you don't believe that life looks after those that live it - which is what you are supposed to believe in!

♃ in 9th House

Jupiter in the Ninth House

Faith in life for you should always be on the up and up because opportunities for furtherance - through such pursuits as travel, higher education, philosophy or religious seeking - come and go in abundance. However, a lot depends upon whether you make the most of them by putting hard work and effort into making progress an ongoing thing rather than just a chance occurrence that peters out.

You are keen to discover some kind of overall meaning to life, again though; you can have the attitude that the 'meaning of life' is some kind of joke. What all this amounts to is that you either invest in and exploit your many talents and opportunities and not give up when the going gets rough, or, you adopt a cavalier attitude that protects you from having to keep the faith when the odds are against you. In the meantime, of course, your life just trickles away.

Your Jupiter Aspects

♃ ☐ ☾ ★★★★★

Jupiter challenged by Moon

There is something very natural about the way you express your faith and enthusiasms. One could say that your faith was inborn. This may of course mean that you simply subscribe to the religious persuasions of your family or racial background - whatever they may be - or that you oppose them with equal zeal. Being quite so subjective about your spiritual convictions, you may well under or overestimate them and therefore be challenged concerning them.

♃ △ AS ★★★★★

Jupiter allying with your Ascendant

Whatever the level of your faith and enthusiasm is, it emanates from you quite easily. In response to this, others feel good and optimistic in your company. This attracts opportunity and help on both professional and personal levels.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♒

Saturn in Aquarius

You are learning to free yourself from whatever is inhibiting you. In order to do this you have to establish a set of rules that allows you to break the rules that were laid down for you initially. If this sounds like a recipe for hypocrisy then you're right, it is - and you could lose (or never gain) many friends as a reaction to your double standards.

If, on the other hand, you take the trouble to devise a set of moral, political or psychological principles - and stick to them - then your impartial view of life can be of enormous help to anyone who feels caught between two camps. In order that you begin to meet this objective, you will attract relationships and situations that force you to come clean with the stark truth of the matter. In the process though, beware of merely being offhand about your shortcomings, because that would put you back to square one.

♄ in 7th House

Saturn in the Seventh House

These lessons and responsibilities that you're supposed to be working on in yourself could be mistakenly projected onto a partner. You expect them to be putting right that which is really your department. When you do get down to it yourself - which essentially means that you're simply learning to relate to others in a responsible way - then you show great principle and discipline with regard to any serious relationship.

In fact, serious relationships are your staple diet because even casual affairs have a habit of calling you to book. Similarly, having a partner who is cold and remote is a sign that you're only going through the conventional motions of serious commitment rather than owning up to your part in it all. To sum up, failing to commit yourself leads to feeling lonely or being alone so love for you is very much where you find it and how you make it.

Your Saturn Aspects

♄ △ ☉ ★★☆☆☆

Saturn allying with Sun

Because you have a natural and increasingly conscious sense of discipline, you work through all this assiduously and at a steady pace. You get things done simply because you know what has to be done. It's only a matter of time before you hold a position in life of some authority or integrity. In fact, it's your actual ability to structure things that earns you such a reputation.

♄ □ ♀ ★★☆☆☆

Saturn challenged by Mercury

You are learning to become mentally aware of all these matters, to talk and be rational about them. At times this can cause you to feel quite inadequate intellectually. This needn't be such a problem if you bear in mind that it's being disciplined, objective and successful concerning your Saturn Profile as a whole that enables you to think and communicate clearly, rather than just acquiring a bunch of clever phrases and concepts that weigh you down rather than bear you up.

♄ ☐ ♀ ★★★★★☆

Saturn challenged by Venus

You might vainly seek pleasures or distractions in relationships as a way of diminishing or avoiding the difficulties mentioned here, or you feel that in some way you're not allowed to enjoy yourself. The fact of the matter is that you can only go out to play to your heart's content when you've performed your duties as I've described them here or, alternatively, you find that taking pleasure in your work is your ultimate goal.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

Uranus in Virgo

You belong to a generation (born during the 1960's) whose intention was to reform work methods and attitudes towards health. During this period technology transformed the employment situation with automation and computers. You are therefore quite likely to encounter difficulties and sudden changes on your own employment scene as new requirements arise and certain occupations become obsolete. You may wish to update office systems or overthrow bureaucracy.

Uranus in the First House

You actually embody the qualities of Uranus so you give off an electrically charged aura, which can either be stimulating or shocking - depending on your overall personality. Sparks of genius and eccentricity fly off you. You have a sharp awareness of your very existence, which can amount to being a testament to the uniqueness of the individual or to just being downright odd.

You can inspire or move the masses; or just be plain awkward, clumsy and disruptive. Your physical appearance is probably unusual or arresting in some way too. Freedom and rights can become a valid or distorting issue for you, expressed as being stubbornly rebellious just for the sake of it, or as a reformer who actually makes radical changes to the world around you. In any case, you should first reform your own attitudes or be prepared to be drastically transformed yourself in the process.

You are astoundingly intuitive at times - laying bare pseudo or subtle personality traits in others with great precision and sang-froid. Indeed, your intuition is your leading edge and may well find a fruitful expression in psychology, astrology, science and technology, etc. You are also inventive; in essence, I would say that you are inventing your very self.

Your Uranus Aspects

Uranus challenged by Mercury

The pressure to change and reform as described here can impinge particularly strongly upon the way that you think on a day-to-day level. It's important that you come to terms and deal with these disturbances in the radical manner I have suggested here otherwise, you will find yourself nery and mentally stressed as you vainly juggle conflicting interests.

Positively speaking, this tension between your need for change and your need for mental order and expression breeds in you the ability to come up with original ideas and solutions, as well as having a speedy, computer-like mind, which albeit suffers the occasional 'virus' of scattered or irrelevant thinking.

Uranus challenged by Venus

You are greatly attracted by the call to freedom, innovation and experimentation where interpersonal relationships are concerned. A partner may well have first introduced you to the new and alternative and/or, you're keen to introduce the same to mates or society in general. Your relationships and morals (or apparent lack of them) may shock others - for better or worse.

♃ ♀ ♂ ★★★★★

Uranus uniting with Mars

When you stop to think about it, you relish your sense of freedom and what it is in you that stands out from the crowd because it sharpens your sense of uniqueness. Your sex life becomes a particularly vibrant area for breaking the rules and further intensifying your individuality. But really this is all in aid of waking you up to what it really means to be free to do your own thing.

♃ △ MC ★★★★★

Uranus allying with your Midheaven

Through your efforts to make the most of the positive qualities of your Uranus Profile you attain (or come to attain) a professional position that actually embodies those qualities of scientific, metaphysical or humanitarian progress.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

Neptune in Scorpio

You belong to the Neptunian generation born between the mid 1950's and 1970. As this generation came of age, established musical forms and the use of drugs took on more self-destructive and sexually explicit undertones. The seeking of 'highs' became heavier and also involved the underworld of crime more. The lack of Mankind's spiritual awareness which had been prevalent for some time became a more critical issue, with material status symbols becoming gods and sexual diseases - especially AIDS - becoming more threatening as the result of a lack of awareness as to the true and subtle nature of what intimacy means. The challenge to your generation is great indeed: to prevent degeneration.

Neptune in the Fourth House

For you, such sensitivity and yearning for some ideal focuses upon your home life and family background. It is most likely that you experience this as remembering things in the past as being idyllic. The streets or fields of your childhood have a rosy veil cast across them. Indeed, such childhood dreams are true, even if only because of the way you perceived life in those innocent times.

Actually, this is the whole sentiment underlying Neptune here: that life is as sweet and as secure as you make it. The negative value here is, of course, one of glossing over the less pleasant or even harsh experiences of early life. This has the effect of making you feel rather rootless because, through denying past pain, you are still denying a part of yourself. So, you have to go into that pain and then re-emerge cleansed with a far clearer sense of 'Paradise Lost'; this in turn enables you to go about regaining your 'Paradise', thereby imbuing your own home with a hauntingly familiar quality.

This is very important to you and creates a haven for others too. It also has something to do with your psychic sensitivity to the Earth and Nature's forces. Without doing this 'regaining', as with the weeds at the bottom of a pond, you can be trapped in the past, or in the self-contained nature of your family and particularly the relationship with your father, who may have been a vague, weak or unavailable figure. Positively though, he could be a great example of selflessness and compassion.

With regard to finding a home itself, this is often in the lap of the gods in that some power outside you grants or takes away quite special abodes. Living by the sea is especially desirable and beneficial to you.

Your Neptune Aspects

The good news is that you have a natural feel for a healthy situation, personality, or physical body for that matter. There's probably a history of psychism in your family. This gives you a reliable sense of the whole and of suitable places for homes or establishments. You may also have a talent for dowsing.

♆ ✖ ♇ ★★☆☆☆

Neptune working with Pluto

You're helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

♆ □ AS ★★★★★

Neptune challenging your Ascendant

Your emotional fears and wounds and the dreams that compensate for them, get in the way of your having a realistic relationship - or having one at all. You will need to track down what it is that caused them in the first place.

Chapter Twelve - Your Pluto Profile: Power and Transformation

Pluto in Virgo

You are a member of the Plutonian generation (1956 - 1972) that grew up into a world where revolutionary changes began to take place with regard to the food that we eat and the way we work. Processing and pre-packaging of food has led to impurities and health hazards.

Work has been automated and 'the personal touch' has been removed. The introduction of more efficient means of birth control gave rise to an illusion of sexual inviolability when quite the opposite (sexual abuse) has increased. All these matters were in fact just crises waiting to happen so that they could be - or rather had to be - duly dealt with. You are a bristle in a gigantic new broom that will sweep clean. At some point you may well get obsessed over work and health as a deep sense of service and purity arises from your unconscious mind.

Pluto in the Second House

Any call to transformation is aimed at your attitude towards money and possessions and at material values in general. If your attitude is negative in some way - like desiring wealth to avoid closeness with others - then this can lead to financial upheaval, thereby forcing a change in values.

You either find it easy to attract wealth in some material form, or very difficult. In both cases, the issue is the same: sooner or later you have to learn what the actual value of material things is. In other words, what is done with wealth is the significant point. If you're out to use material might to bolster a flagging ego, then you either crash or never take off.

When, on the other hand, your material assets are used generously and wisely, a never-ending supply line of material wherewithal is conferred upon you. This can reach a point where your material influence is used to substantially alter the status quo in any given area - like the regeneration of a company, building, or some stricken section of the community.

Your Pluto Aspects

Pluto allying with Moon

Deep down you 'feel' very safe. Deep down you 'feel' you belong. You also have a deep sense of what holds people together - be it family, friends or whatever and deep down you 'feel' what has to be eliminated to create or maintain such security. All you have to make sure of is that you trust these deep feelings.

Pluto uniting with Mars

Until you sort out or come to terms with the negative qualities of your Pluto Profile, you are in danger of feeling dogged by intense urges which can affect you in certain ways, like being under the sway of an oppressive man, or being one - or in some other way that is detrimental to your well-being. The basic challenge here is to contact this raw energy and convert it into something positive - like athletic prowess, putting powerful resources to good use, etc.

♃ ✖ ♆ ★★☆☆☆

Pluto working with Neptune

You know that we're all in the same boat and that it's a case of sink or swim. So, you look around, smile at your fellow human beings and pull together!

♃ △ MC ★★☆☆☆

Pluto allying with your Midheaven

Your power potential as I have described it here, may be used positively to further your profession, or be an integral part of its nature. So your career could well involve psychology, metaphysics, healing, or wielding some form of power.
